

8th July 2009 - Loughborough University

Session Title: Using the Learning Achievement Tools (LAT) from Taskstream
Format: Hands-on Workshop
Presenter: Andrew Gilmour
Institution / Organisation / Company: TaskStream
Website / Blog: www.taskstream.com
E-mail: agilmour@taskstream.com
Country: UK
Summary: <p>TaskStream is the leading provider of electronic portfolio, assessment and accountability management solutions for education. TaskStream's Learning Achievement Tools (LAT) provides easy-to-use tools for creating and publishing ePortfolios and personal development plans (PDPs), as well as powerful standards-based instruction and evaluation tools for conducting both formative & summative assessments. The Accountability Management System (AMS) facilitates the management of all quality assurance and accreditation processes through a single, centralised platform. This pioneering, web-based system promotes collaborative involvement and internal quality review of all continual improvement processes, including specialised tools for outcomes assessment, curriculum mapping and action planning for "closing the loop" based on collected evidence.</p> <p>The hands on workshop will allow delegates to explore PDP, formative and summative assessment tools, addressing standards and criteria based courses. The session will also examine TaskStream's integrated field placement tools. Time permitting, delegates will also have the opportunity to see TaskStream's Accountability Management System which addresses institutional quality assurance and accreditation.</p>
