Country: UK
Summary of Presentation / Workshop: <p>This session will show how marking and feedback can be substantially speeded up. In just 45 minutes you will learn how to use the Assess By Computer (ABC) to mark and give feedback for formative and summative assessments that include many question types including short, medium and long text answers, essays and diagrams. At the end of the session you can register for four months' free use of the tool for up to 500 students on three different courses.</p>
